

## THE DESIRE 7.2M

LUXURY FREEDOM DONE SMARTER

**Introducing the Desire 7.2M**—where the adventure begins the moment you take the wheel. Whether you're navigating coastal bends or settling into your destination, simply extend the awning, sink into your chair, and let the world fade away. Wake to ocean sunrises, chase winter warmth, escape the crowds, and stay longer in the places you love. The Desire 7.2M gives you the freedom to travel further, stay off-grid longer, and live more comfortably wherever the road leads.

Designed and engineered by Revolution Motorhomes, the Desire 7.2M is the culmination of functional luxury. It is remarkably compact and easy to drive, yet packed with premium features—delivering exceptional value in its class.

**Every Revolution motorhome is designed, engineered, and built in Australia, for Australian conditions, Australian roads, and Australian lifestyles.**

## THE CAR LICENCE LUXURY MOTORHOME BENCHMARK

The Desire 7.2M redefines what is possible in a car licence motorhome—delivering true luxury, genuine 161 sqft living space, and uncompromising structural engineering in a compact, easy-to-drive platform. This is not about doing more with less. It is about doing things properly, without compromise.

---

### UNCOMPROMISING SAFETY: OUR PRIORITY

Because rollover protection is not legally mandated, most manufacturers omit it to save costs or rely on rust-prone steel tubing. Revolution leads the industry with lightweight, corrosion-free, high-tensile alloy rollover protection as standard.

**RMH Driving Camera System:** Panoramic monitoring featuring Dual-side and rear-view monitoring for an uninterrupted field of vision for total blind-spot elimination.

**Auto-Locking Cabinets:** Exceeding Australian Safety Standards, our cabinets secure your gear automatically to prevent hazards during sudden stops.

**Proximity Sensors:** Standard front and rear sensors take the stress out of tight manoeuvres and parking.

---

### THE SMOOTHEST RIDE ON THE ROAD

Built on the dependable Mercedes-Benz Sprinter LWB chassis, we have enhanced the driving experience with our custom-developed adjustable rear airbag suspension.

**On-the-Fly Adjustments:** Customise your ride and handling directly from the cabin to suit road conditions.

**Precision Levelling:** Independently lift or lower each side to stabilise your home on uneven terrain.

**On-Board Compressed Air:** Our integrated system facilitates our optional on-board tyre inflation system.

---

### YOUR SANCTUARY, WITHOUT COMPROMISE

To appear more spacious, others shrink their beds by up to 100mm and cut their corners to create the illusion of a large living space. Revolution Motorhomes provides a full-sized double bed for off-the-shelf bedding—because genuine comfort matters.

This is real space, not visual trickery.

## GENUINE SPACE & SMART STORAGE

We believe in transparency, not deception. Our interior living space is 350mm wider than many competitors', delivering practical storage solutions that actually work in everyday life.

**Full-Depth Wardrobes:** Hang your clothes normally in spacious wardrobes without compression or compromise.

**Large Kitchen:** Desire 7.2M kitchen bench is 1450mm x 920mm, offering nearly 50% larger than the industry standard—giving you true cooking comfort with a 200ltr upright Fridge Freezer.

**Substantial Storage:** By utilising the area behind the kitchen drawers, we provide two additional exterior bins: 2 generous storage compartments, or for our Gas Option - a dedicated gas locker for 2 × 4kg or 9kg bottles, and a separate storage compartment. Additional Lower Body Storage Bins and a large under-bed storage space accessible from both the inside and outside.

---

## TRUE OFF-GRID CAPABILITY

Your freedom is powered by a high-performance electrical suite, engineered for reliability and long-term independence:

- Victron 200Ah x 2 /5.12kwh Lithium Battery
- 520W Solar Panel System (expandable to 1kW)
- Victron Multiplus II 24/5000/120 Inverter Charger
- Victron Cerbo GX Advanced Monitoring System
- Optional 3kW petrol generator for ultimate autonomy

***Stay longer. Travel further. Rely less on powered sites.***

---

## PARK ANYWHERE, EXPLORE EVERYWHERE

At under 7.5 metres (including a loaded bike rack), the Desire 7.2M qualifies as a true Car Licence Luxury motorhome. It complies with nationwide off-street residential parking regulations—allowing you to park at home, travel freely, and explore without restriction.

## BUILT WITHOUT COMPROMISE

Every Revolution motorhome is hand-built using premium materials, aircraft-grade alloys, and industry-leading construction methods. We do not cut corners—because occupant safety, structural longevity, and resale value depend on it.

***This is engineering with purpose.***

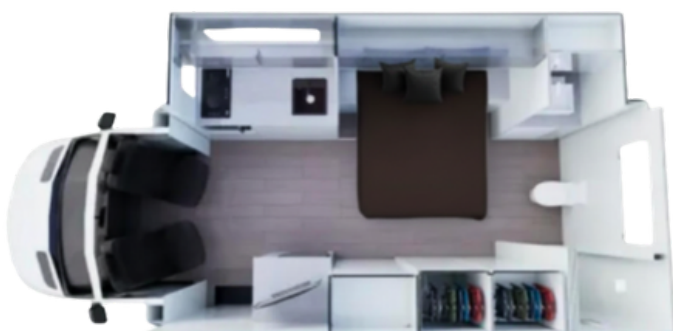

## READY TO ESCAPE?

Experience the perfect balance of structural strength, refined luxury, and intelligent design. Your motorhome should support the way you choose to live—comfortably, confidently, and without compromise. *Priced from \$346,450.00*

***Revolution Motorhomes — Freedom, engineered responsibly.***
